Harshita bajpai	12217492	B48
Anugya verma	12218237	B53

Section KOC34

Technologies used:

➢ HTML:

We used html for the basic structure of our project.

We used <title> tag for the title of our project.

We used relative link to attach the CSS style sheet with our html page, we used <div> tags the navigation and logo container.

We used (img src) for attaching the image and <style> to control its size, we also used heading tags, paragraph tags and created sections using section tag. We have also created a grid of images using <div class=" grid"> in the footer we used link lists and used html forms for email input and different icons as well. In the second page we used <nav> tag for navigation link and in it we used tag to create unordered list. We used heading, paragraph, image, section tags here as well and we also accumulated <button>tags for creating clickable buttons, we have also created different panels using <div class="box"> we have also used forms and it we used label tags for usability improvement, also created a footer using <footer>tag.

➢ CSS:

We used CSS for designing our webpages, for the first page we used CSS-margin, padding, box-sizing, for the html body line height, font weight, font family (which font would be used), we have created button by using ease-in-out transition , padding, border ,used button hover as well, navigation , container , icon is also assigned .

We have created a hero section, feature section, designed the grid by width, height, border radius and transition as well, image hover is also there, and for the second page we have used these functions only along with scroll-behaviour, background colour

ABOUT PROJECT:

Name of the project: "Kitchen Garage"

Objective: restaurant website and online food delivery

Our project is a simple restaurant website with home delivery, a user-friendly interface, compatible for android as well and collecting the feedback from the user to improve our services
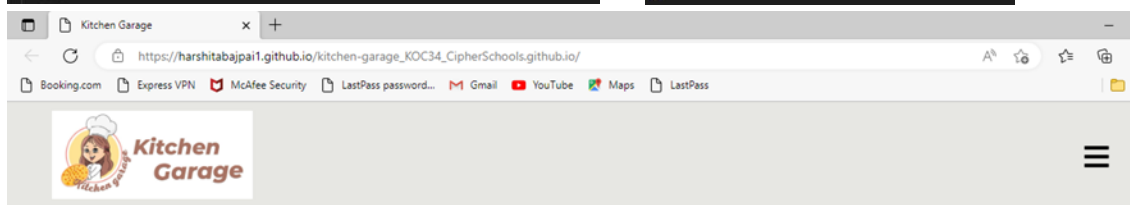

Live link of our project: https://harshitabajpai1.github.io/kitchen-garage_KOC34_CipherSchools.github.io/

```html
<!-- Hero Section -->
<div class="container">
  <div class="hero">
    <div class="hero_image">
      <img src="images/lithhi chokha.jpeg"style="height: 500px; width: 400px;" alt="hero image" />
    </div>
    <div class="hero_content">
      <div class="tag"><h3>40% Off on Online Payment</h3></div>
      <h1>Khao Piyo Aur Mauj Karo</h1>
      <p>
        100% vegetarian food with desi indian delicacy
      </p>
      <p> #FeelLikeHome </p>
      <!--<button class="explore_btn">Explore us now</button>-->
    </div>
  </div>
```

```css
/* Hero Section */
.hero {
  display: flex;
  gap: 100px;
  justify-content: center;
  align-items: center;
}
.hero_content {
  display: flex;
  flex-direction: column;
  gap: 20px;
}
.tag {
  background-color: #352b97;
  padding: 20px 40px;
  color: white;
  align-self: flex-start;
}
```
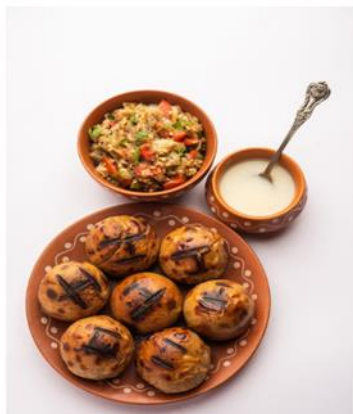

```css
.hero_content h1 {
  font-size: 72px;
  line-height: 1.2;
  font-weight: 400;
}
.explore_btn {
  background: #ffc066;
  align-self: flex-start;
}
```

Hero Section

Feature section

```html
<section class="features">
  <div class="feature">
    <img src="icons/discount.png" alt="" />
    <div class="feature_content">
      <h3>Discount Voucher</h3>
      Upto 40% off on online payment.
    </div>
  </div>
  <div class="feature">
    <img src="icons/fresh.png" alt="" />
    <div class="feature_content">
      <h3>100% Vegeterian Food</h3>
      Freashly prepared food with organic handpicked vegetables.
    </div>
  </div>
  <div class="feature">
    <img src="icons/delivery.png" alt="" />
    <div class="feature_content">
      <h3>Fast & Safe Home Delivery</h3>
      Delivery at Your door within 40mins.
    </div>
  </div>
</section>
```

```css
/* Features Section */
.features {
  margin-top: 100px;
  display: flex;
  gap: 20px;
  justify-content: center;
  margin-bottom: 50px;
}
.feature {
  display: flex;
  gap: 20px;
  padding: 20px;
  transition: 0.2s ease-in-out;
}
.feature img {
  width: 72px;
}
